WE ARE STAR CNC TECHNOLOGY THAILAND

With over 20 years of experienced, Star CNC provides professional WIRE-EDM cutting service serving both Thai and foreign companies. We have in total 8 wire cut and super drill machines to serve the industry. Our policy is to provide the highest quality EDM wire cutting service to the market with reasonable price and in a timely manner.

EDM WIRE CUTTING SERVICE

Wire cutting detail

Max. XYZ axis travel 1200x800x600 mm Max. workpiece size 1650x1200x600 mm
 Max. workpiece weight 4,000 Kilograms Max. taper angle ± 30 degree / 100 mm No. of cut up to 6 cuts / tolerance $\pm 5 \mu$ Finest roughness Ra up to 0.2μ / 6 cuts Wire ϕ 0.10, 0.15, 0.20, 0.25, 0.30 mm

Materials that we support

Copper, Brass, Steel, Carbide, Aluminium, PCD

SMALL HOLE SUPER DRILLING SERVICE

Super drilling detail

Max. XYZ axis travel 600x400x400 mm

Max. workpiece weight 800 Kilograms

ϕ of small hole EDM-Super Drill tube

0.13, 0.15, 0.2, 0.3, 0.4, 0.5, 0.8, 1.0, 1.5, 2.0, 2.5, 3.0 mm

ISO 9001 CERTIFICATE

At Star CNC we use modern technology, brand-new standard tools and equipments. Star CNC has continued to improve our people technical skills and knowledge as well as quality management system. We were ISO9001:2000 certified in year 2007 and continued upgrading to the latest version ISO9001:2015 in 2016.

WHICH INDUSTRY DO WE SERVE ?

We provide precision machining work service to automotive, electronics and electrical, plastics, mould and die, tooling, hard disk and various other industries.

WHY STAR CNC?

- We have a dedicated quality team with qualified ISO standard tools and equipment which meet international standard quality
- We take our customers delivery milestone seriously, we don't want to miss any target. We give commitment to tasks we can meet
- We have a large EDM-wirecut machine, XYZ travel 1,200x800x600, which can take on a large piece of work
- At Star CNC, we don't re-used wire. The wire we use for cutting is new and high-quality standard, this is to ensure finest surface of the material
- Our factory is temperature controlled to ensure machines work effectively to its highest standard as well as reducing risk of machine error
- At Star CNC, we use dionized water (purified water) to control quality of wired cut
- We are professional, we have more than 20 years of experience in wire cut industry
- One of the most important business ethics of Star CNC is to be responsible for what we've done, our customers and society
