SQUARE COOLING TOWER CO., LTD.

### About Square Cooling Tower

**Square Cooling Tower** was found in 1995 by the group of engineer who expert on package cooling tower and become to full-line, full service of cooling tower manufacturing for industries cooling tower. **Square Cooling Tower** is Cooling Tower Technology Institute (CTI) corporate member, as above-mentioned all of our cooling tower design complies to CTI standard with the latest design software support.

**Square cooling tower** supplied various types of cooling tower ranging from bottle type induced draft counter flow cooling tower; square type induced draft cross flow cooling tower; counter flow and cross flow type field erected with robust and anti-corrosive pultruded FRP structure; closed circuit cooling tower; plume abated cooling tower. pultruded FRP structure; closed circuit cooling tower; plume abated cooling tower.

**Square Cooling Tower** is involved in the design, engineering, procurement and construction of new cooling tower, repair/upgrade of existing cooling tower and part replacement for cooling tower of all manufacturers. Beside that Square Cooling Tower also offer "Turnkey" Beside that Square Cooling Tower also offer "Turnkey" cooling tower package including chemical treatment program, Softener & Filtration system, reuse water system, pumps system, lighting system, instrumentation, civil work and piping work in battery limit.

This service provides owner or EPC contractors to outsource the entire cooling tower package to **Square Cooling Tower** and single source responsibility for the client.

**Our Policy**

We are one of the efficient manufacturer, concerning to the client's satisfaction, continually improve our skills and management also human resource development concerning. We will deserve you our best with our honest service and the full international products quality in order to be worth your trusts in the concept.

**"The Cooling Tower Solution Provider"**

**Induced Draft Counterflow Cooling Tower**

**(Bottle Type)**

**Model : BCT**

**Induced Draft Counterflow Cooling Tower**

**(Square Type - HDG Structure)**

**Model : SQSC**

**Induced Draft Counterflow Cooling Tower**

**(Square Type - FRP Structure)**

**Model : SQSC**

**Induced Draft Counterflow Cooling Tower**

**(Concrete Structure Type)**

**Model : SQSC**

**Induced Draft Crossflow Cooling Tower**

**(Square Type)**

**Model : SQCT**

**Enclosed Type Cooling Tower**

**Model : SQCC**

**Package Cooling Tower**

**Model : SQPC**
